Hi, I'm Omar! This summer was great. I played football every day! At first, I played with some of my neighbors (1) in the street. Our street is quiet and very safe. We had a lot of fun and we liked to imagine (2) that we were famous football players! Then, a new boy joined in. He told me about a football club in our area.

One afternoon, I decided to go to the club. There were lots of boys playing in two teams and I watched them for a while. Then, the coach (3) saw me and asked if I played football, too. "Do you want to try playing with the team?" he asked. Of course, I did! The coach watched me kick the ball and said I was a talented (4) football player. He asked me to join the team.

For the next six weeks, I played with my neighbors in the morning and then with the team at the football club in the afternoon. It was very tiring, but really fun! At the end of the summer, we took part in a tournament<sup>(5)</sup>.

#### The summer vacation

(4) Who did you do them with?

(5) How did you feel?

#### Example

#### "My last summer vacation"

Last summer vacation was great, as I did many activities. I traveled to Hurghada with my family and cousins. We swam in the sea. We rode bikes and played many games together. We enjoyed our time there. I also volunteered to help clean the streets in our city. Every weekend, we collected trash from the streets and sent it to the recycling center. I joined the football team at the club, and we won a tournament. We were really happy. I read many books and watched many movies. It was one of the greatest vacations that I had.

## Reading & Listening Skills

Lesson 3: Ancient buildings

#### Pre-reading question:

- How often did you visit ancient places?

Read the information about an ancient building in Egypt.

SB page 8

The Temple of Edfu is an Ancient Egyptian temple اللغة (2) الغفة الغربية (1) in the town of Edfu. The town is on the West Bank(1) of الديائة (3) the River Nile between Luxor and Aswan. The temple is about 2,250 years old. It is important for understanding life in Ancient Egypt because the writing on its walls gives us very interesting and useful information about language<sup>(2)</sup> and religion<sup>(3)</sup> over 2,000 years ago.

#### Post-reading questions:

- 1 Where's Edfu?
- 2 How old is the Temple of Edfu?

#### Pre-listening question:

#### Lesson 3: Ancient Buildings

- What ancient places would you like to visit?

Listen to the dialog. Mariam visited the Temple of Edfu in the summer vacation. Check the problems at the temple that she mentions.

SB page 8

Hadaya What did you do in the summer holiday, Mariam?

Mariam I visited my aunt and uncle in Edfu. It's near to Aswan and there's a beautiful temple (1) there,

Hadaya Oh, yeah. It's an ancient temple, isn't it?

Mariam Yes, and it tells us a lot about what life was like in Ancient Egypt, so it's a special place.

Unfortunately (2), there are some problems at the Temple of Edfu. The weather in Egypt is bad for the stone walls. The wind and sand very slowly cut the stone away.

(1) <del>siao</del>

لسوء الحظ (2)

علماء الآثار (3)

رعاية (4)

إصلاحات (5)

Hadaya That's too bad. Do lots of tourists come to the temple?

Mariam Yes, and all those people's feet are bad for the stone, too.

**Hadaya** Is anyone doing anything to protect the building?

Mariam Yes. Volunteers work with archaeologists (3) on the buildings. Some of them are students like us who help in their summer holidays. They can stop these bad effects on some buildings, but there isn't enough time or people to help all the buildings at the same time.

Hadaya That's a pity. And the buildings are so old, aren't they?

Mariam Yes, because they're very old, they need lots of care (4) and repairs (5).

#### Post-listening questions:

1 Where's the Temple of Edfu?

2 Mention أذكر a problem at the Temple of Edfu.

#### Pre-listening question:

#### Lesson 4: Summer Well Spent

- Did you learn anything interesting online this summer?

## Listen and choose two words to describe Younis.

SB page 10

So, Younis, what's your answer to the first question: did you help other people in the summer vacation?

Younis Yes, of course I did. I helped out at my parents' restaurant(1). I cleaned the dishes and cleaned the floor in the restaurant at the end of the day. I often went to other shops to buy things that my parents needed, too, I would say I often helped my family and friends in the summer vacation.

(1) <u>aebo</u>

نشط (2)

(3) cobii

يعدل (4)

Basel Great, so you helped your family and you learned how to work in a restaurant.

Younis Yes, that's right.

Basel How about sports? How often did you do sports?

Younis Every day, I think. I always played sport in the summer vacation. I love playing football with my friends near my building.

So, you were active (2) in the holidays? Basel

Younis Yes, definitely.

The next question is: How often did you do something to help your community? Basel

Younis I often volunteered (3) to help at a project in my community. People walk around the streets, collect litter and recycle it. Then our streets are cleaner and we can use the paper and plastic again.

Sounds great. Can I join in too? I never did anything in my community Basel in the holidays, but I want to start helping out.

Younis Of course, Basel.

Basel The last question is: did you learn anything interesting online this summer? How often did you go online?

Younis I sometimes went online at home in the evening. I was usually tired in the evening. But sometimes I watched some videos about how to make videos with a phone and how to edit (4) the videos so they look good.

Basel That sounds useful.

Younis Yes, I want to give it a try myself now.

#### Post-listening questions:

1) Where did Younis help out in the summer vacation?.....

2) What did Younis do at home in the evening?.....

Last week, I visited the Luxor Temple. It's a large ancient Egyptian temple. It's on the east bank of the Nile River in Luxor. The ancient Egyptians built it around 1400 BCE. It is important for understanding life in Ancient Egypt because the writing on its walls gives us very interesting and useful information about language and religion over 3,000 years ago. You can see beautiful paintings on its walls, but the temple is so old, you cannot see all of the colors in the paintings on its walls. Some people are working to clean and repair the paintings. ### **B** Reading & Listening Skills

Lesson 5: Literature

**Pre-reading question:** - What's your favorite sport?

Read and listen to the story.

A Rising Star!

When Hana Goda first started playing table tennis at the age of four; her talent for the sport quickly became clear<sup>(1)</sup>.

However; there was a problem. The table was too high for her!

"What can we do?" her coaches asked, seeing how much she wanted to play.

In the end, they made the legs shorter so that the table was lower.

Since then, Hana has improved year after year, and she amazed the table tennis world by her speed (2) and focus (3).

SB page 12

واضح (1)	سرعة (2)

Born on 12<sup>th</sup> December 2007, Hana became Egypt's youngest ever national champion<sup>(4)</sup> in 2019, at the age of 12. Just one year later; she came top of the ITTF (International Table Tennis Federation) under- 15 women's world rankings<sup>(5)</sup> – the first African and Arab player to do so. Then, in 2022, she won a top award at the ITTF African Cup in Lagos. What an achievement!

The United Nations chose Hana to take part in Shabab Balad, a project in Egypt to help young people learn and connect in the world of work.

Although Hana is still much younger than many of her opponents <sup>(6)</sup>, she works just as hard as any older player. She has also spoken about how important it is for her to take things step by step, always learning and trying hard to achieve her victories <sup>(7)</sup>.

Hana really enjoys practicing for long hours every day, even if it is hard work. She is showing young people in Egypt that not only is it possible to make your dreams come true, but you can also enjoy the journey even if the road is difficult. **Post-reading questions:** 

- 1 How old was Hana when she first started playing table tennis?
- What did Hana achieve in 2022?
- (3) What qualities does Hana have that help her succeed?

#### Pre-reading question:

Lesson 6: Writing

- What activities did you do last summer holiday?

Read Waleed's email and answer the questions.

SB page 14

: Waleed From : Ashraf To

Subject: My summer

Hi Ashraf,

Hope you and your family are OK. We're all fine.

I'm back at school this week after the summer vacation.

The summer vacation was good, but I'm happy to be back at school now. I can see all of my friends and it's good to learn something new every day again.

BTW, I learned quite a lot in the summer vacation, but I didn't learn the things you usually study at school. Instead, I volunteered to teach adults to read and write in Arabic and I learned how to explain things clearly. I think that will be useful to me now we're back at school.

Of course, I also had some fun in the summer vacation. I often helped my dad in his workshop. We both enjoy playing ping-pong, so we decided to make a ping-pong table. It was hard work, but we were v happy with the table when it was finished. We were able to play ping-pong every day for the rest of the vacation.

How was your summer?

TTYL!

I loved seeing my whole family come together to celebrate with Amira and Ayman. I saw aunts and uncles who live a long way from us and who I don't see very often. This is a photo of me next to Amira and some of my cousins.

: Malak From

To: Tamara

**Subject:** Some family photos

Hi Tamara. How are you?

I'm sending you a photo of me at my grandma's birthday party last week. The party was at my grandparents' house and our whole family was there. We all had a lot of fun together!

The party showed me that sending messages to your friends and family is fine, but it's not as good as spending time with them. You can laugh with them, hug them and look in their eyes and really listen to them.

Do you have time to meet up with me one afternoon next week? Maybe on the weekend? We could go to the shopping mall. There's a shop there that has some beautiful clothes in its windows. I could ask my parents for some money for the cinema or to go to a restaurant. My dad's friend Ali opened a new restaurant last month and it looks great. What do you think?

Write soon and tell me about your family.

Love, Malak

#### Post-reading guestion:

- What do they sell in the shop that Malak writes about?

Find a photo or draw a picture of your family all together. Write a description of it in your notebook.

In this picture, my family and I were having lunch at my grandparents' house. My aunt Salwa and her kids were there. The food was delicious! We had salad, fattah, and meat. My grandmother also cooked some delicious soup. After we ate, Mom made us all some tea and cake, which we all enjoyed. After that, I played outside with my cousins. It was great fun!

# Reading & Listening Skills

#### Pre-listening question:

Lesson 3: Families around the world

- Where do you live?

Listen and match the speakers to the countries.

SB page 20

Hello, my name's Isabella. I'm from Naples, a big city in the south of Italy. I live with my mom, dad and brother in an apartment. My grandparents live just across the road! We have a car, but my brother usually gets around on his motorbike. On the weekends, we like to get out of the city to explore (1) the coast (2) and islands (3) near Naples.

Liam

Hi, I'm Liam, I'm from Toronto in Canada. I live with my mom, brother, and two sisters. Oh, and our dog, Bobby! But our grandparents live on the other side of Canada, so we only see them in the school holidays. Our house is big and has a garden. We have a car, too. It's fun hanging out (4) with my family. In the summer, we ride our bikes. In the winter, we go skiing!

Komang

Hi, my name's Komang. My family and I live on an island in Indonesia. It's a big family! There's my mom, dad, brother and grandma, my aunt and uncle, and my three cousins. We all live together in a traditional house. We don't have a car, but we have two motorbikes. Our favorite thing to do together is go to the beach to fly kites!

Alice

Hello. My name is Alice and I live with my family in a village in the UK. In my family, there's me and my sister, and our mom. Our grandparents live nearby, and we often all go for walks in the countryside (5) together. Our house is very new and modern - I call it our 'green house' because it's made of recycled materials and has solar panels (6) on the roof.

#### Pre-reading question:

#### Lesson 4: Selling things online

- Do your family and friends ever sell things online? How do they do this?

Read and listen to the dialog. What is the first thing Grandpa wants to sell online?

SB page 22

Seif Grandpa, why don't you sell some of this old furniture online? That way you can get some money for it.

Grandpa I don't know ... Is it safe?

**Seif** It's safe as long as you follow a few rules (1).

**Grandpa** Can you tell me what they are?

Seif I can, yes. First, always use a well-known website to buy or sell something. Here's a good one. OK, what do you want to sell?

حالة/ظرف (2) مُواعد (1) عنوان (4) معنومات شخصية (3) عنوان (4) عام (6) حساب بنكم (5)

**Grandpa** How about this table?

Seif Great. Can you give me your phone so I can take a photo of it? Thanks. OK, the next thing to remember is: always be honest. Make sure all the information you give about something you're selling is true.

Grandpa Well, this is a large table from the 1970s. It's in good condition (2).

**Seif** OK. Now, another very important rule is: don't share personal information (3) like your name, date of birth, address (4) or bank account (5) details.

**Grandpa** Got it. What happens next?

**Seif** Someone will send you a message if they want to buy the table.

Grandpa And then, will I meet the person to give it to them?

Seif It's better to send it to them. In fact, that's another important rule. If you have to meet someone, meet them in a public (6) place and don't go alone.

**Grandpa** Thanks, Seif. We never did this when I was your age!

#### Post-reading questions:

1 What does grandpa want to sell?

Salma, a 15-year-old girl from Egypt, loved photography. She often shared her photos on a website for young photographers. One day, she got a comment<sup>(1)</sup> from Ashly, a girl of her age from Australia, who liked her photos.

They started chatting and found out they had a lot in common. They both loved taking pictures of nature (2).

Soon, they were talking every day, and decided to do a 30-day photography challenge (3) together. Each day, they had to take a photo on a specific (4) theme and share it. They enjoyed the challenge and became closer friends.

However, one day, "Ashly suddenly stopped answering Salma's messages. Salma felt worried. She sent several(5) messages, but there was no reply. Salma felt sad that their friendship might be over.

Salma couldn't focus on her schoolwork or her photography. After talking with her mother. Salma decided to send a message, letting Ashly know that she was there for her. She wrote, "Hi Ashly, I hope you're okay. If you need someone to talk to, I'm here for you".

A few more days passed, and finally, Ashly replied. She explained that she had been dealing with some difficult family news and needed some time offline. Salma was happy to hear from Ashly again. They talked about what had happened and made plans to continue their challenge.

Salma and Ashly now had a better understanding of the importance of communication and being there for each other. They knew that their friendship, though online, was real and meaningful(6).

### Lesson 1: How I spend my time

Pre-reading question: - What do you like doing at your free time?

Read and listen to the email. How does Mahmoud start and end his day?

SB page 29

From: Mahmoud To: Asser Subject: RE: Hello new friend Hi Asser,

Thanks for your email! You asked me about my free time<sup>(1)</sup>.

This is an important year at school and I don't have much free time, so I like to use it well!

In the mornings before school, I write a "To do" list<sup>(2)</sup> of things I need to do. It really helps me to organize<sup>(3)</sup> my day. After school, I do different things. It's important to take regular<sup>(4)</sup> exercise, so on Tuesdays and Thursdays I play football with my friends. I like playing with them! They help me a lot. I also like to learn new skills<sup>(5)</sup>, so I go to evening classes. At the moment, I am learning first aid<sup>(6)</sup>! I want to be able to help people.

ينظم (3)	منتظم (4)
مهارات (5)	الإسعافات الأولية (6)
الطبيعة (7)	المجتمع (8)
وصفات طعام (9)	يومية (10)

On the weekends, I spend time with my family. We like to go for walks in nature<sup>(7)</sup>. We don't take our phones, so we can enjoy what is around us. There are some really lovely parks and gardens in this city. Sometimes, my brother and I help in the community<sup>(8)</sup>. He is a chef, and we help to make food for hungry people at his restaurant. I love to learn recipes<sup>(9)</sup> from him. My mom is a good cook, too. I think my brother learned a lot from her!

Every night, before I go to bed, I write a journal (10). It helps me to think about what I have done and focus on good things. I think it helps me to sleep better, too.

Tell me how you spend your free time. Maybe I can get some good ideas!

Bye!

Mahmoud

### **Post-reading question:**

- What do you think of Mahmoud and his brother?

- Do you like homemade drinks? Why/Why not?

Read and listen to the dialog. Check what Salma and Sahar decide to sell on their stall at the school bazaar.

SB page 32

Salma Hi, Sahar!

Sahar Hi, Salma. What are you drinking?

Salma Homemade<sup>(1)</sup> lemonade. My friend Shorouk and her brother are selling it from their stall<sup>(2)</sup> at the bazaar.

Sahar That's a good idea, isn't it?

Salma Yes, I agree. The weather is so hot.

Sahar I'd love a glass of cool lemonade right now!

Salma Well, why don't you buy some?

Sahar I don't think so. Our break(3) is almost over.

Salma OK. What's that you're making?

Sahar It's jewelry<sup>(4)</sup>. Look, I put these beads<sup>(5)</sup> onto some string<sup>(6)</sup> and there you go – a bracelet<sup>(7)</sup>!

Salma That's cool. You could sell them at the next school bazaar.

Sahar But they take a long time to make.

Salma That's true. Why don't we sell some of our old toys?

Sahar I'm not sure about that. It would be nice to make something. I know, how about cupcakes? Everyone loves cupcakes!

### Dear Jana,

I'm writing to you about my best friend Fareeda.

She's a good friend and a kind<sup>(1)</sup> person. She works hard at school. My friends and I are really worried about her.

She studies all the time and she is very stressed<sup>(2)</sup>.

Her parents work hard, and they want her to do well at school. She wants to make them happy. She doesn't go out at breaktime<sup>(3)</sup> and she always asks our teacher for extra<sup>(4)</sup> homework.

Last week, she asked him to give her exercises for the weekend. He was surprised<sup>(5)</sup>! We want her to spend her free time with us to relax<sup>(6)</sup>. Is it a good idea to ask her to play sports with us? It's fun! Or maybe we can all join a club to learn a new skill? She is good at it! What do you think?

Hi Hala,

How are you and your family? I hope you are in good health. I am writing to ask for your help and advice. My friend, Malak, does not go out at breaktime. She stays in the classroom and looks sad. I want to help her, but I don't know what to do.

Do you have any suggestions on how I can make her join us outside during breaktime? Should I talk to a teacher about it? I really want to make sure she is happy and feels relaxed.

Thank you for your help.

When Nermine's family move to Oxford for her dad's job, she misses her hometown, Alexandria. She decides to use her favorite hobby, geocaching (1), to explore (2) the city.

Geocaching is a special sort of outdoor treasure hunt (3) Just like a normal treasure hunt, you solve clues (4) to help you find something interesting - the treasure. But in geocaching, the clues come from an app on your phone. When you solve the clues, you get coordinates (5) which are pairs of numbers. These help you find the treasure - the geocache, a box with small, interesting things in it.

In Alexandria, Nermine loved geocaching with her friends. She's worried that her new classmates (6) might think geocaching is geeky<sup>(7)</sup>, so she doesn't tell them about it.

Then, one lunchtime, Nermine is looking at a new challenge (8) on her phone when two girls from her class, Sarah and Ella, come over.

"What's that game?" asks Sarah.

Nermine explains. "There are millions of geocaches all over the world. When you find one, you don't take the treasure. You write your name in a logbook (9) to tell other geocachers that you found it, then you put it back. If you want, you can put something new in the geocache for other people to find."

- البحث عن المخابئ (1)
- صد الكنوز (3)
- تلفيحات (مفاتيم حل لغز) (4)
- زملاء الفصل (6)
- غريب الأطوار (7)
- سجل العلاحظات (9)

"That sounds fun" says Ella. "Can we play, too?"

"Sure! But this is a really difficult one."

"That's okay. Three heads are better than one, so maybe we will find the treasure more quickly together!"

Their classmates notice that Nermine, Sarah, and Ella are spending all their lunchtimes together. They ask questions and soon, there are ten of them geocaching. When they find the geocache, they discuss what to add to it. They decide on a school chair and a shell from the beach in Alexandria.

One day, Nermine, Sarah, and Ella decide to make their own geocache. They tell their math teacher. She thinks their idea is good and says that the geocache could be a challenge for the rest of the class.

The clues lead the class all over the school. It's hard work and they have to work together. Nermine feels included and happy.

Finally, they work out the coordinates and find the geocache. They all have such a good time and they don't even mind that the treasure is extra math homework!

Post-reading question:

- How did geocaching help Nermine to make new friends?

## An unusual hobby

My unusual hobby is collecting sea glass on the beach. I first became interested when I found a smooth, colorful piece while walking along the shore with my family. What I enjoy most is the fun of discovering particular shapes washed up by the waves. To do this hobby, I visit beaches near my home, especially after storms to look for sea glass among the sand. Sometimes, it's challenging to find these pieces. From this hobby, I learned patience الصبر and respect for nature's beauty. I would recommend it to others who enjoy the beach and treasure hunting.

Pre-reading question: - What did you do last summer?

# Read the forum posts. What is the topic of the forum?

### SB page 40

### (A) Ellie, Sweden

I live next to a huge (1) forest (2) so I like to go on long walks in nature. I also volunteer some of my time at the local community garden: I help grow vegetables that later go into meals at the community kitchen. Last summer I also volunteered at the kitchen, but I'm not good at cooking!

## (B) Josh, UK

I love being active (3), so I'm always doing something. I go to the sports center nearly every day. I run and swim there. They have a great indoor swimming pool. I also do karate three times a week, but I'm still learning. I'm not very good yet, but maybe one day I'll compete (4).

## (C) Luca, Italy

When I'm not at school, I'm usually playing chess (5) (sometimes, at school too!). There's a tournament next month, so I'm training for that right now. In my last one, it was really close: I got second place! I play a lot of games, usually against the computer, but I also spend a lot of time learning about different positions (6).

# (D) Nadia, Egypt

I feel great when I'm helping others. My mom's a teacher, and I help her teach adults to read and write. It's great to see them improving day by day. When I'm not doing that, I like writing about myself. I keep a journal about my life, and I also like to write stories. I often use AI to give me ideas about what to write.

Mariam And how was the big day?

Sarah Perfect! My uncle has a cafe in town, so we had the party there. My grandfather took my grandmother for a walk and said, 'Why don't we stop for a coffee at the cafe?'. When they went in, we were all there.

Mariam That's great! And did you know everyone there?

Sarah No, I met lots of new relatives. It was also good to see cousins that I usually just message online. It's much better to chat<sup>(4)</sup> face-to-face, isn't it?

BTW, did you have a good first week back at school?

Mine was OK. It was good to see everyone again. There are a couple of new students who seem nice.

I do miss the summer vacation, though. I had a great time! Did I tell you that I volunteered at a summer camp for children who can't see? I learned so many skills and met fantastic people. Our world has many problems. We need new ways to help us take care of our planet and fix(1) some of the problems it faces. Here are some exciting new inventions (2) which will help us.

#### **EcoATMs**

We use regular ATMs to take money out or put money into our banks. Eco-friendly (3) ATMs help us recycle old electronic devices (4). When you put your old device in it, the machine tells you how much money you can have for it. You can keep the money or give it to a charity (5)!

Tree-planting projects

When we go online, we see online advertisements. Some search engines give the money they get from advertisements (6) to help tree-planting projects around the world.

Solar-powered airplanes

Most airplanes aren't good for our planet. Solar-powered airplanes fly using power that comes from solar panels (7). It is very clean power. The planes can fly around the world, day or night. It's an exciting new invention for the future!

### Plant-based batteries

Scientists are developing batteries (8) that work using material from plants. The way these batteries are made is better for the environment than traditional batteries. In the future, they could even produce enough power to run electric cars!

Ocean clean-up projects

The world's oceans<sup>(9)</sup> are full of plastic which is very bad for life in the ocean. Ocean clean-up projects collect rubbish in the water, then ships take it back to land for recycling.

## **B** Reading & Listening Skills

### Pre-reading question:

Lesson 3: Online safety

- What are some examples of bad behavior online?

Look at the headings in the article. What do you think it is about?

SB page 48

When you go online to send messages, play video games, download an app, or just check your social media, it's important to remember a few simple rules (1) that can keep you safe.

### 1. Choose strong passwords

It's important to use a password that is a mix of letters, numbers, and special characters (2) like !, &, or \$. Long passwords are also a good idea as they are hard to guess. Never use your name or date of birth, your pet's name, or anything that hackers can guess from your social media.

قواعد (1)	رموز (2)
تعلیف (3)	يحذف (4)
حساب (5)	طلبات الصداقة (6)
معلومات شخصية (7)	التنمر الإلكترونى (8)
فظیم / کریہ (9)	

#### 2. Think before you post

When you post a comment (3) or photo on social media, it stays there forever- even if you delete (4) it from your account (5). Don't post or share anything nasty or false.

### 3. Be careful of friend requests

Don't accept friend requests <sup>(6)</sup> from people you don't know. Always tell your parents if someone you don't know sends you messages or wants to chat with you, and don't click on any links they send you. Never share personal information <sup>(7)</sup> with anyone.

### 4. Be kind online

Cyberbullying (8) is a big problem for young people. It's easier for bullies to post horrible (9) messages online as they can hide behind a false name. Cyberbullying can happen any time you are online – at home, at school, or out with your friends. Tell an adult if someone is bullying you. And always be kind online.

### Post-reading questions:

- 1) What makes a password strong?.....
- 2 What information should you not put in a password?.....
- 3 What shouldn't you share or post?

### Lesson 4: Science and technology

### Pre-listening question:

- In your opinion, what's the most important invention?

### Listen to a talk about science and technology.

SB page 50

Reader: Science and technology - what's the difference?

Well, science tell us about the world and how everything in it works. Technology, on the other hand, helps us to solve(1) problems. It also helps us to do things better and more quickly.

In science, we ask questions about the natural (2) world - questions like, if this happens, why does this always happen next? To answer these questions, we do tests. We must look carefully at the results (3) of the tests to check

أجمزة (6) درجة الحرارة (5) الكهرباء (7)

whether our ideas are correct. If we can use science to prove (4) something, we know it is a fact. For example, we can do tests to show that, at sea level, if fresh water cools to a temperature (5) of zero degrees Celsius, it always freezes into solid ice.

In technology, we use the information we learn from science to solve problems and find new ways to do things. Sometimes we do this by making devices (6) such as phones and computers. Of course, to make a device that uses electricity (7), we must first understand how electricity works - in other words, the science behind the technology!

So, in short, science is about understanding the world, while technology is about using that understanding of the world to make and do things that help it. Post-listening questions:

- 1 When does water freeze?
- What is the difference between science and technology?

Pre-reading question: - What is a scam?

### Lesson 5: Literature

Read and listen to the story. How is Ali scammed?

### SB page 52

### Scammed!

Ali read the post carefully, and then read it again. "No way!" he thought.

He was on his favorite gaming forum(1), Usually, he used it to chat to other gamers, but this morning another type of post caught his eye. In it, someone wanted to sell a limited-edition(2) games console. Consoles like that were very expensive, and there weren't many of them. Ali wanted it!

Ali checked the time of the post: 2 am. It was now 8 am. Maybe he could be the first person to message the seller!

From his part-time<sup>(3)</sup> job in a restaurant, Ali had some savings<sup>(4)</sup>. He also had LE 500 from his grandma for his birthday. He checked his account: yes, he had enough for the console!

The seller had a good profile and lots of positive reviews<sup>(5)</sup>. So, Ali sent him a message.

This console looks awesome<sup>(6)</sup>! Why is it half price?

The seller replied quickly. He explained that the console was a present, but he already had one. He sent Ali some photos and videos of it.

Thanks, Ali messaged back. I'll take it!

The seller told Ali where to send the money, and Ali made the payment<sup>(7)</sup>. He felt excited - his friends would be amazed when he told them!

Every day, Ali waited for the console to arrive. After three days, he messaged the seller again.

The console hasn't arrived yet. When did you send it? Another three days went by. No reply. No console. All began to worry. He messaged the seller again.

He felt terrible, and very embarrassed(10). All his money was gone and he had nothing to محرد (10) show for it. حرس (11) Eventually, Ali knew that he needed to tell someone. رسمات (12) "Mom, Dad, I need to talk to you ..." Ali felt much better after speaking to his parents. They helped him report the scammer. The next time Ali went onto the gaming forum, the post was gone. He felt glad about speaking up, so the scammer couldn't do the same thing to someone else. He also learned to be cautious(11) when shopping online. It was a difficult lesson, but an important one. Over the next few months, Ali worked hard at the restaurant and saved up enough money to buy the console from an official(12) seller. "Remember," he said to his friends when he proudly showed them his new console, "If something doesn't seem right, stop, think, and speak to your parents or another adult for advice. It could be a scam!" Post-reading questions: 1 What does Ali usually do on the gaming forum? 2 Where does Ali work? 3 Why does Ali trust the seller at first? 4) How much did Ali's grandma give him for his birthday? 5 What reason does the seller give for selling the console?

كيفية الكتابة عن التعرض للاحتبال الالكتروني

- When did you experience it?
- What did you do?

- What happened?

- What advice can you present?
- How did you know it was a scam?

### Example

#### "Online scam"

Last month, I experienced a scam. I got an email saying I won a prize. I was excited and followed the link. It asked for my personal information. Later, I felt something was wrong. The website looked strange, and the email had spelling mistakes. I realized it was a scam. I guickly closed the website and didn't give any extra information. I told my parents, and we reported the scam. My advice is to be cautious with emails from unknown people. Always check if the email is real, and never give personal information to strangers. Stay safe online.

### How to write about taking part in a technology competition

كيفية الكتابة عن الاشتراك في مسابقة تكنولوجية

- When did you take part?
- Why is this competition?

- What is your invention?

- What prizes did you win?

- How is it useful?

## Example

### "A technology competition"

Last month, I participated in a technology competition at my school. My invention was a smart water bottle. It detects how much water you drink and reminds you to drink more often. This is useful because many people forget to drink enough water each day. The competition was held to encourage students to create new and helpful technologies. There were many great inventions, but my smart water bottle won the first prize. I won a special prize and a gift card. It was a fun experience, and I learned a lot. Taking part in this competition made me feel proud and excited about future inventions.

## 4 Read the following, then answer the guestions:

Last year, I participated in an international technology competition. It was an exciting online event. Students from many countries joined the competition. My project was a smart backpack that students take to school for their books. The backpack had solar panels to charge devices and a GPS to find it if it got lost. It was useful for students and travelers. I worked hard on my project and presented it. I didn't win the first prize, but I got a special gift. The competition taught me a lot about technology and inventions. I also made new friends from different countries. Taking part in this competition was a great experience, and I am proud of my achievement. I look forward to joining more competitions in the future.

## **B** Reading & Listening Skills

## Pre-reading question:

- What do you know about climate change?

Read and listen to the article. Match the photos to the paragraphs. SB page 57

## How climate change is affecting me

- (1) Hi, I'm Leonie. I live in a village in Andalusia in Spain. Hot weather in summer is normal<sup>(1)</sup> for us, but this summer the highest temperature <sup>(2)</sup> was 46°C. That's about five degrees<sup>(3)</sup> warmer than it normally is. My family is having a lot of problems because of the hot weather here.
- (2) My family lives on a farm. Because of the hot weather, there's a drought<sup>(4)</sup> in the south<sup>(5)</sup> of Spain right now. The tomato plants on our farm are getting smaller and some of their leaves<sup>(6)</sup> are brown. Because of the drought, we can't give the plants as much water as they need. My family therefore don't have enough tomatoes to sell. My dad is looking for a second job so he can earn more money.
- (3) We're also having some problems with our health. My mom had heatstroke<sup>(7)</sup> last week and d she stayed in bed for three days because she was too ill to get up. She had a fever<sup>(8)</sup> and she was really tired all the time. We were very worried about her, but, fortunately<sup>(9)</sup>, she's feeling better now. Some of my friends had heatstroke, too. I'm trying to stay inside as much as possible, so I don't get heatstroke as well.
- (4) The worst thing about this summer for me was that our school closed for a week. The teachers said it was dangerous for us to travel to school because it was so hot. It was also too hot for us to be at school because we don't have air conditioning (10) there. I missed my friends when

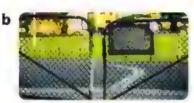

conditioning<sup>(10)</sup> there. I missed my friends when we couldn't go to school. I hope that never happens again!

## Lesson 2: Water-scarcity

#### Pre-reading question:

- What problems do people have when there is water scarcity?

## Read and listen to an article about water scarcity.

SB page 58

## **Thirsty planet**

Water scarcity<sup>(1)</sup> is one of the most **worrying** problems facing the world today. Although water covers more than 70% of Earth's surface<sup>(2)</sup>, two billion people don't have enough fresh<sup>(3)</sup>, clean water for drinking, washing, cooking, and growing food. Even in countries where there are good water resources<sup>(4)</sup>, the water cannot always reach<sup>(5)</sup> the people who need it.

One of the reasons for water scarcity is climate change<sup>(6)</sup>. On average<sup>(7)</sup>, temperatures are higher than they were in the past. In some places, there is also less rain, so there isn't as much water in lakes<sup>(8)</sup> and rivers.

Water scarcity affects<sup>(9)</sup> people in different ways. Farmers, for example, can't grow as many crops as they used to. Without crops<sup>(10)</sup> to sell, they can't earn enough money to pay for clean water. A lack of water can also mean that people have to walk a long way to find it, which can have a negative **effect** on their health. The biggest impact<sup>(11)</sup> can be on children, who have less time to spend in school.

Another problem is that people often can't find clean, safe water. The dangerous metals (12) and bacteria (13) in dirty water can make them very ill. This can be more dangerous for children than for adults because their bodies are less able to fight the illnesses.

Solving the problem of water scarcity is not simple. However, there are lots of things that can help such as finding new water sources and developing new **technologies** to produce clean water. It is also important that people who live in countries with plenty of **water** don't use too much of it. The worst thing that could happen is that no action is taken, and more people suffer (14).

## A) The comparative of adjectives

المقارنة بين ششن

#### e.g. . Adel is taller than Ramy.

Reading is more useful than computer games.

# We use comparatives to say what is the same or different about two things, people, or situations.

• نستخدم المقارنات لنقول ما هو المتشابه أو المختلف عن شيئين، شخصين أو موقفين. وتنقسم الصفات حسب النطق إلى:

- صفات قصيرة (Short adjectives) وهم صفات تتكون من مقطع واحد (One syllable).

مثل: (high - big - tall - old - wide - nice - hot)

- صفات طویلة (Long adjectives) وهم صفات تتکون من آکثر من مقطع (Long adjectives) - صفات طویلة (modern - crowded - amazing - wonderful - interesting)

1 Short adjectives: الصفات القصيرة

- e.g. . This puzzle is easier than the last one.
  - The Nile River is longer than the Amazon River.
- 2 Long adjectives: الصفات الطويلة

- e.g. . This book is more interesting than that one.
  - The dog is less dangerous than the lion.

- عند السؤال نستخدم (Which) بمعنه أي / أيهما للتخيير كالتاله:

Which + (is/are) + (adj. er) / (more/less adj.) ...?

- e.g. . Which is longer, the River Nile or the River Thames?
  - •Which is more useful, the mobile or the computer?

  - الإجابة الصحيحة (slower) لأنها مقارنة بين اثنين والصفة slow قصيرة.

## B) The superlative of adjectives

صيغة التفضيل العليا

- e.g.. The Nile is the longest river in the world.
  - English is the most/ least difficult subject.

#### We use superlatives to express the highest degree of something.

- نستخدم الصبغ التفضيلية للتعبير عن أعلى درجة من شيء ما.

1 الصفات القصيرة: Short adjectives

... the + adj. قفت + est ...

- e.g. . This is the smallest room in the house.
  - He is the **old**est member of the group.
- 2 Long adjectives: الصفات الطويلة

... صفة ... طفة + adj. الأكثر the least الأكثر

- e.g., This restaurant has the most delicious food in our town.
  - He has the least interesting job in the office.

عند إضافة (er) أو (est) للصفة القصيرة المنتظمة، نتبع الآته: 1) إذا انتهت الصفة بـ (e)، نخيف فقط (r) أو (st).

Water scarcity is a big problem in many parts of the world. It happens when there is not enough water for people to use. This can be because of drought or overuse of water. When there is not enough water, people cannot grow food or stay clean. Animals and plants also suffer. To solve this problem, people should save water by using less water. We should build better water systems and protect water sources. Everyone needs to work together to make sure there is enough fresh, clean water for all. Water is very important for life.

#### Pre-reading question:

Lesson 3: Saving energy

- Do you save energy at home?

the same time!

Air conditioning, hot water, and electronic devices in our homes all use a lot of electricity. Making electricity uses a lot of the planet's resources, which can make climate change worse. Let's help our planet - let's save energy at home!

Remember to always switch off lights, TVs, computers, games consoles, tablets, and all of your electronic devices when they aren't in use.

Don't leave them on stand-by as this still consumes a lot of energy. And don't use more than one device at

bath, but there's only between 30 and 80 liters in a fiveminute shower. Showers are a great way to save water and energy. But don't spend a long time in the shower: set the alarm on your phone for five minutes and then stop!

There are lots of things in our trash that we can recycle or even re-use at home. Plastic bottles are a good example.

Re-use them to make other things, for example a bird feeder, or a hanging basket for your plants.

## Post-reading question:

- How can we use recycled plastic bottles? .....

Lesson 4: Geology

SB page 62

**Teacher:** Good morning class. Today we're looking at different types of rocks for module 3 on the structure of the Earth. Tarek, please show the first slide. That's it, thank you.

The Earth's surface is, as you can see, made up of layers of rocks. Rocks are solids which are made of minerals are solids which are made of minerals Rocks can be grouped into three types depending on which minerals they contain and how they were formed.

## Pre-listening question:

Lesson 4: Geology

- What kinds of rocks do you know?

Now listen to Part 2. Match the pictures (a-c) to the rock types (1-3).

SB page 62

**Teacher:** The three types of rock we're looking at today are sandstone<sup>(1)</sup>, basalt<sup>(2)</sup>, and marble<sup>(3)</sup>.

Sandstone is usually found near the Earth's surface. It's formed from the broken parts of other rocks and material when they press together. The youngest layers of sandstone are at the top. The oldest layers are at the bottom. The Ancient Egyptians used sandstone to build things, like the Sphinx in Giza.

Now, if rock becomes very, very hot, it melts into topuid. Basalt is a type of rock that forms when liquid rock cools again and becomes solid. We find these rocks in the bottom layers of the Earth's surface. It can make some amazing natural shapes. Here's an example. This is the Giant's Causeway in Ireland.

Finally, let's look at marble. Marble is also found in the bottom layers of the Earth's surface. It forms when other types of rock get very hot and the minerals in

them change form. Marble is a very strong type of rock. It is often used to make statues, like this one here from Ancient Greece.

## Post-listening questions:

- 1) How is marble formed?
- (2) Mention three kinds of rocks from the passage.

## Complete this part of the audioscript with the missing words. SB page 63

Unit 5 Cassons

## 1 Read the following, then answer the questions:

Being eco-friendly means looking after our planet by making small changes in our daily lives. Here are some easy tips to be more eco-friendly at home. We could use less water when we wash dishes or clean our teeth. We should turn off the tap when we don't need it. We can also save electricity by turning off lights when they are not in use. This helps to save energy. We shouldn't forget to recycle *almost* everything at home like, paper, plastic, and glass. We could put <u>them</u> in recycling bins, so we can re-use them again. We can help the environment by planting a small garden or keeping plants inside our home. Plants clean the air and make our homes healthier.

## Read the text. What type of text is it? Rami's eco blog

Hi, my name's Rami. Last year, I watched a documentary(1) about the effects<sup>(2)</sup> of human<sup>(3)</sup> activities on the planet. After that, I decided to make some changes in my life because I wanted to be more eco-friendly. In the past, I always traveled to school by bus, but now I ride my bike to school. It only takes 15 minutes, it's healthy and it's fun! Before, I never put my trash in the recycling bins and I never thought about if it was recyclable(4) or not. Now, I always look for the right type of recycling bin and put my trash in it, because I understand how important it is to re-use the Earth's resources(5).

Now, I also try to switch off all my tech devices (6) - like my laptop and my games console - when I'm not using them,

because I know that this saves energy and that's good for the planet, too. We can all do things that help in small ways! What changes have you made to help the planet? Leave a comment below.

Saving water is important because it is an important resource. Taking shorter showers helps save water. Eco-friendly actions like using recyclable bottles and planting trees are great for the environment. Recycling is important because it reduces trash and helps make new things from old materials. Planting trees helps fight climate change by cleaning the air. Recycling bins make it easy to sort recyclables from trash. Let's all help our planet by being more eco-friendly!

Lesson 1: Traditional food

Read and listen to the article. Where do people eat these traditional foods? SB page 69

#### Food on the Go

We asked our readers to tell us about the traditional food that they love. Here's what they said!

Most Egyptians know hawawshi. It is a type of bread with meat, vegetables, and spices(1) inside it. Some people like to add cheese to it, too. You bake it in the oven(2) and eat it warm. Delicious! You can also find it in some parts of the Middle East.

Samir, Cairo.

Chipsi mayai, which is also sometimes called zege, is a very popular<sup>(3)</sup> traditional food here in Tanzania. We make it with fries and eggs fried in oil. I love it, but I don't think it is a very healthy snack(4), so I don't eat it very often! Elizabeth, Arusha

Maakouda are very popular in Morocco, Algeria, and Tunisia. We make them with potatoes. We boil the potatoes in hot water, then make them into small balls.

Sometimes we put meat, fish, or cheese in them, too. Finally, we fry them in a lot of oil and serve<sup>(5)</sup> them in a sandwich. They're so good!

## Dear Sir or Madam.

My family and I ate at your restaurant last Wednesday. The restaurant is clean and comfortable(1), but unfortunately, we did not enjoy our meal(2) very much at all.

It took a long time for our starters(3) to arrive. We kept saying to each other: "When did we order our food? I think it was 40 minutes ago!" I ordered a special salad which must be quick and easy to make. After 50 minutes, the waiter brought our starters to us. The starters tasted delicious, but then our main courses(4) came about one minute after we finished eating the starters! We didn't like that at all.

مريح (1)	وجبة (2)

مقبلات (3)	طبق رئيسۍ (4)
جرسوں (5)	التحلية (6)

We all ordered sayadieh el samak as our main course. When it arrived, there weren't any tomatoes on our plates. "Why did your cook put no tomatoes on our plates?"We asked the waiter(5). He said, "We don't have any tomatoes today."

After all of that, we weren't sure if we wanted desserts(6). But, as it was my daughter's birthday, we decided to order them anyway. Five minutes after we ordered, the waiter came back to our table and asked us, "What did you order for dessert?" At that point, we decided to pay for the food we had and leave. I had ordered basbousa and I can also buy that in a sweet shop. So, that's what I did.

Your restaurant is a nice place, but I really think that you need to make some changes. Our family definitely doesn't want to eat there again unless vou improve your service(7).

Regards,

Randa Al-Katib

Farah A research task(1) for school.

Mom That's an interesting picture. What is it?

Farah It's called Barramundi, It's a river fish from Australia.

Mom Where does the name come from?

Farah It's from a native(2) Australian language and means "large scaled(3) river fish".

I then looked at the questions from the project and tried to find the answers. The next thing I did was make notes. "What's that?" asked Magdy.

The two friends looked more closely<sup>(1)</sup> at the trash<sup>(2)</sup> on the ground.

"It's a coffee cup," said Sami. "And look, there's another over there."

Magdy and Sami were in their local (3) park. It was a beautiful day and the flowers were in bloom (4), but everywhere they looked there were used cups, plastic straws (5), and old food containers (6).

"Most of this trash comes from a nearby café", said Magdy. "Why don't we set up a café that makes almost no waste<sup>(7)</sup>?"

"No waste? How is that possible?"

"Well, take this coffee cup. Next time the person who used it wants a coffee, they can bring their own cup to the café. In return, they pay less for their coffee."

"That's a good idea."

"And instead of plastic straws, our café can give paper straws that don't hurt the environment (8)."

Sami's eyes lit up. "There are ways to reuse waste, too. Think of all those coffee grounds – we can use them as compost (9) to grow food."

"Food that we serve in the café!"

The two friends were excited. They talked about their ideas all the way home.

Soon, Magdy and Sami bought an old building near the park. They cleaned it and painted it bright colors with environmentally friendly (10) paint.

A few weeks later, The Living Café opened. It was quiet at first, but then people started to notice it. They liked the way they could help save the planet with their morning coffee! More people came for lunch and said the food tasted delicious and very fresh. They were excited to hear that some of the ingredients grew on the roof of the café. The Living Café quickly became the most popular café near the park.

One day, Magdy and Sami walked through the park again. This time, there weren't any used coffee cups on the ground. There were a few straws, but they were paper. Magdy picked one up and put it in the bin.

"Every little act helps!" he said, smiling.

How are you? I enjoyed hearing about your new school. You asked me about my favorite food. Well, I love lots of different types of food, but these are my all-time top three favorite dishes ...

First, it's got to be burger and fries. Some restaurants frv their burgers, but I prefer mine grilled. They're healthier that way, too. This is why I usually eat them at home. I like them with tomato and onion in the bun(1). I know fries are a bit unhealthy, so I don't eat them often, but I do love them. They're so crispy<sup>(2)</sup> and salty. Delicious!

Another type of food that I really like is salad. It is healthy and good for you. Of course, there are many different types of salad and you can make it in a hundred different ways, but I like to have mine with cucumber, onion, and cheese.

I put lots of olive oil (3) on it, too, I like it best with fresh bread as a cold lunch. I always make and eat my salads at home.

And finally, my favorite dessert is definitely strawberry cheesecake<sup>(4)</sup>, I know how to make it, but my mom's cheesecake is the best. I love the taste and smell of the strawberries and the soft, creamy cheese is delicious. I love eating it on hot days. It's the perfect (5) summer dessert, Yum!

What are your favorite dishes?

To make feseekh, fish is cleaned, salted, and left to dry for **several** weeks. When it is ready, people eat it with bread, onions, and lemons. # Reading & Listening Skills

#### Pre-reading question:

- How can we save water?

Read the text quickly. Which of the problems in the photos are mentioned in the text? SB page 80

Water world

In some countries around the world, not having enough clean water is a big problem. In fact, almost two thirds (1) of the world's population (2) face water scarcity at some point during the year. This means having to walk a long way to find clean, fresh water, or not having enough to drink, cook, and wash.

ثلثی (1) تعداد السكان (2) بعانی (4) يتصرف (5)

Not having enough water can have a bad effect on people's health. Our bodies need a lot of water to stay healthy, but dirty water can make us very ill.

People who need water to earn (3) money also suffer (4) when there isn't enough. For example, farmers need water to grow crops. Without it, they don't have enough crops to sell.

Some research shows that the problem of water scarcity is getting worse because of climate change. We must act (5) now to find a solution!

Menna I'm reading an article about ways to "eat green".

Hana You mean ways to eat more green vegetables?

Menna Haha, no, not exactly. Eating green is about making

don't harm the environment.

Hana Oh, I see.

Menna Our food choices have a big effect on the

environment, you see. They can either increase,

or help to reduce, climate change.

Hana Can you give me an example?

Menna Sure, no problem. Choosing local fruits and vegetables can make a big difference. If you buy food that is grown near to where you live, it

doesn't need to travel long distances (1) to get to you.

Hana That's true. I guess driving or flying food around the world causes

pollution.

Menna Exactly. Secondly, try to buy food that has little or no packaging. Or,

check that the packaging (2) is made from something like paper or

cardboard. Plastic packaging is the worst!

Hana OK, got it.

Menna Another thing you can do is to only buy as much as you need. Throwing

away lots of food is a huge waste.

Hana That's all really good advice. I will think more carefully about my food

choices in the future. Thanks, Menna!

Mara That's cool. Can you show me some?

Penny Sure, no problem. Here are the paper lanterns. We'll use these instead of balloons, which are made of plastic. And this is confetti made of lots of small, dried flowers.

Mara It looks beautiful. What about these glass jars?

Penny They're for candles. The jars contained food, so we washed them and a put ribbon around them. We'll put a small candle inside each jar and put them on the tables during the wedding meal.

an adult for help if you are not sure!

Thanks to the fertile land near the River Nile, the Ancient Egyptians could grow crops and raise animals for food. They had lots of good quality ingredients, and they used them to cook a surprising variety of different dishes.

Bread was very popular and cheap to make. The Ancient Egyptians baked it in many different ways, often adding oil, spices, or chopped vegetables to make it tastier. One kind of bread was aish baladi, which is still popular in Egypt today. However, in the past, people baked it slowly in special clay ovens which they heated with wood fires. Today, we can bake it quickly in electric ovens.

Another food that was popular in Ancient Egypt was hummus. To make it, people boiled and mashed chickpeas, then mixed them with oil, garlic, and salt. In fact, there is an Egyptian recipe for hummus still used today that is nearly 1,000 years old!

Some Ancient Egyptians also ate meat and fish. They usually grilled meat over a fire, in the same way that we make kebabs today, or roasted it in ovens. However, they didn't have fridges, so to preserve meat and fish they dried them and covered them in salt. They made the fish dish we still know as Feseekh in this way.

Some people still use this method today to get a real taste of the past!

Saving electricity is important for both yourself and the environment. One simple way to save electricity is by turning off lights when you leave a room. Also, use energy-efficient light bulbs that consume less power. Unplug devices like phone chargers and other electronics when you are not using them, as **they** can still use energy when plugged in. Another way to save electricity is by changing your habits. In the winter, wear warm clothes instead of using the heater. In the summer, set the air conditioner to 24°C and use fans to help cool down. Lastly, try to use natural light during the day instead of turning on lamps. By following these easy steps, you can **reduce** your electricity use and help the environment.

Many people today are very busy and don't have time to sit down for a meal. Instead, they choose to eat "food on the go". This means they eat food while they are traveling or working. Some common examples of food on the go are sandwiches, wraps, and fruit. These foods are easy to carry and quick to eat. Fast food restaurants also offer meals that are ideal for busy people. However, eating on the go is not always healthy. It's important to choose healthy options, like fruits, nuts, and whole-grain snacks. While eating on the go can be handy, taking time to eat slowly and enjoy your meal is better for your health. Eating balanced meals will help you stay strong throughout the day.

I'm writing to tell you about my brother, Ali. He is very funny and always makes everyone laugh. Ali loves playing football and is on a team with his friends. They play every weekend at the park, and sometimes I go to watch him. He is also really good at drawing. Last week, he drew a picture of our cat, and it looked just like her! Our parents are very proud of his talent. Besides playing football and drawing, Ali helps me a lot with my homework. When I don't understand something, he explains it to me. We also play games together in our free time. Ali is not just my brother, but also my best friend. I'm really lucky to have him in my life.

## 4 Read the following, then answer the questions: Hi Hala,

How are you? Last weekend, my family and I went hiking in the mountains. It was amazing! We started early in the morning and the weather was perfect. The sky was clear and we could see the sun rising over the hills. We walked along the road and went through a beautiful forest. There were tall trees, colorful flowers and lots of birds singing. We rested and had a snack.

In the afternoon, we reached the top of the mountain. The view from there was amazing. We took many pictures to remember the day.

Have you ever tried hiking? I think you would enjoy it. It's a great way to see nature and spend time with family. Write back soon and tell me about your favorite outdoor activity.

Best wishes.

Being **eco-friendly** means taking care of the environment and making choices that help protect our planet. One simple way to be eco-friendly is by saving energy at home. You can do this by turning off lights when you're not using them. Another way is by using less water. Take shorter showers and turn off the tap while brushing your teeth. Recycling is also very important. Instead of throwing away plastic, paper, and glass, put them in recycling bins so they can be used again. Walking, biking, or using public transport instead of driving a car can reduce air pollution. Planting trees and growing your own vegetables are also great ways to help the environment. Being eco-friendly is about making small changes in your daily life that add up to a big difference.

Inventions for a sustainable future are ideas that help protect our planet. Scientists and engineers are creating new ways to use energy, like solar panels that **convert** sunlight into electricity. Electric cars are another invention that helps reduce pollution because they don't pollute the air. There are also machines designed to clean the ocean by removing plastic waste. These inventions are important because **they** help keep the Earth clean and safe for future generations. People are also working on ways to save water and grow more food using fewer resources. By using these new ideas, we can make sure that the world stays healthy and beautiful for everyone. Sustainable inventions are key to building a better future for all.

Last summer, I went on vacation with my family. We traveled to the beach. The weather was sunny and warm. We stayed in a small hotel near the sea. Every day, we swam in the sea and played on the sand. My brother and I built sandcastles. We also **gathered** shells and took many photos. One day, we went on a boat ride and saw dolphins. At night, we ate at nice restaurants and tried different foods **there**. I loved the seafood! My favorite part of the vacation was spending time with my family and having fun together. We stayed for one week, and it was the best vacation ever. I hope we can go back again next summer. It was a wonderful holiday, and I will always remember it.
